

## Strike Zone Team 5460

Sponsor Letter

Dear potential partner,

We are Strike Zone, a competitive high school robotics team from Lapeer County, Michigan. For seven years we have been producing world-class robots and highly skilled graduates who are prepared for their future. This is accomplished through a combination of hands-on learning and mentorship from experienced professionals from many backgrounds.

Technology has been rapidly advancing in the past several decades and it's important that the next generation is well versed in innovation and creative thinking to continue this progression. Strike Zone's goal is to build students into future leaders and innovators to help fulfill those needs.

Strike Zone Robotics is a FIRST (For Inspiration and Recognition of Science and Technology) Robotics Competition team composed of student and adult mentors (professionals and college students). The adults serve as mentors to guide student members in team management, engineering, computer programming and to develop essential leadership skills. The goal is to inspire and support these youth members who will in turn, inspire and support others in the community and eventually become leaders of tomorrow.

Sponsoring Strike Zone Robotics is an investment into the community. We're more than just building robots, our team is making Lapeer a beacon for STEM (science, technology, engineering, mathematics). We do this in many ways, like coaching elementary robotics teams, demoing our robot at Lapeer High School events, and at the Lapeer Days parade, just to name a few. Our students are working to better themselves and the lives of the people around them.

Strike Zone is a part of the Lapeer Community School District. This means that in most situations your donation may be tax deductible. Please consult your tax preparer to be certain. Your sponsorship helps our team build a robot to compete at competitions all over the United States. Including the travel to the World Championship that is in Houston, Texas. The average yearly budget for the team is 40 thousand dollars. Please take time to consider this partnership.

Thank you so much.

Parker Duncan,

Mentor Strike Zone Robotics
